

# Shark Navigator Freestyle SV1106 Dust Filter Replacement

Replace your Shark Navigator Freestyle SV1106 dust filter to improve the vacuum's suction.

Written By: Zachary Liu

## INTRODUCTION

Replace your dust filter when cleaning it does not improve the vacuum's suction, or when the vacuum will not suck the debris.

## Step 1 — Dust Cup

- Push the grey button on top of the dust cup canister and pull the canister off at the same time.

⚠ Make sure the dust cup is empty and the vacuum is off before replacing.

## Step 2

- Press the grey clip at the bottom of the dust cup to open the dust cup.

## Step 3 — Dust Filter

- Pinch and lift out the filter.

To reassemble your device, follow these instructions in reverse order.
