

# LG Risio Front Camera Replacement

This guide will walk you through how to replace the front-facing camera for the LG Risio.

Written By: Amina

---

## INTRODUCTION

If your LG Rizio front-facing camera is not functioning, use this guide to replace it.

---

### TOOLS:

- [iFixit Opening Tool](#) (1)
  - [Phillips #0 Screwdriver](#) (1)
-

## Step 1 — Back Panel

- Use a plastic opening tool to separate the back panel from the device.
- Remove the back panel.

## Step 2 — Battery

- Place your thumb along the bottom of the battery and pry upwards to remove.

### Step 3 — Midframe

- Press down on the SIM eject tab with a fingernail (or iFixit opening tool), and slide the SIM card out.

### Step 4

- Remove the eight Phillips #0 screws from the internal support frame.

## Step 5

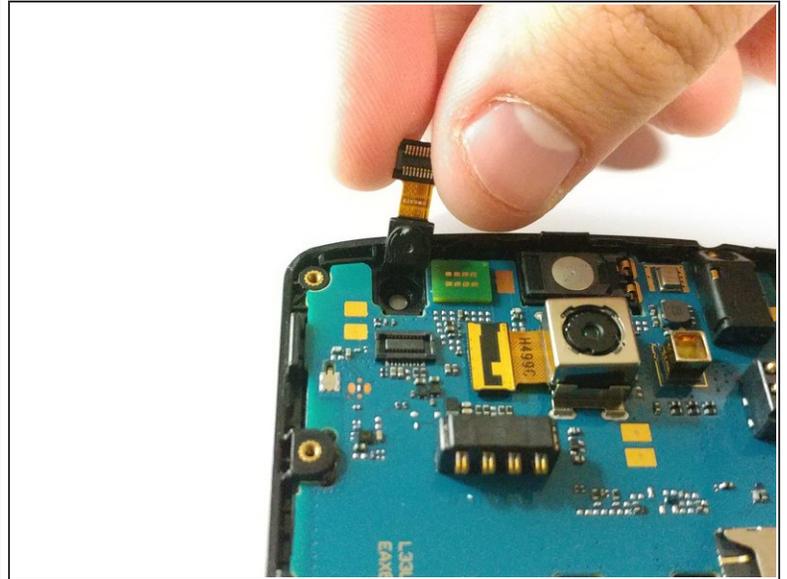

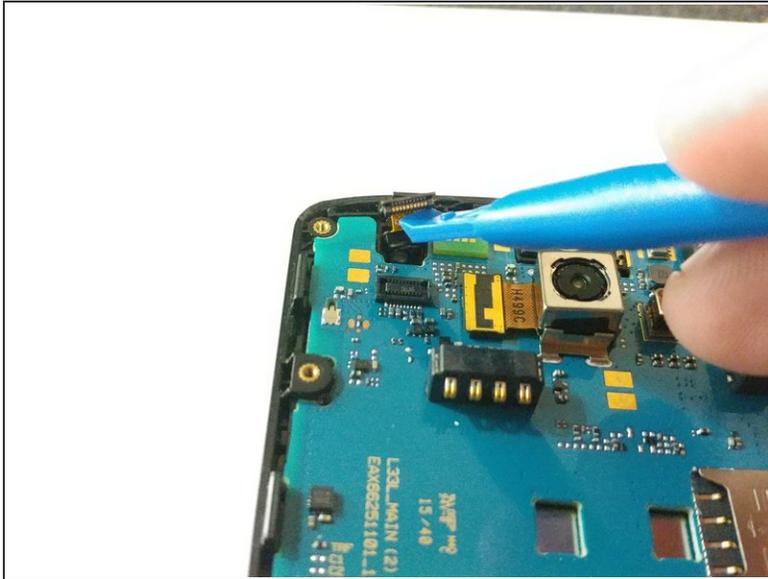

- Use an opening tool on the marked locations to lift the edges up. There should be a small click when lifting these edges up.

## Step 6

- Using your hand, pick up the midframe to separate it from the phone.

## Step 7 — Front-Facing Camera

- Unclip the front camera connector from the motherboard and lift it from the frame.

To reassemble your device, follow these instructions in reverse order.
