INTRODUCTION

The Sharper Image Literati Tablet may need a battery replacement years or months after purchase, according to reviews online. The battery replacement for The Sharper Image Tablet can be done in approximately 10 - 25 minutes with moderate difficulty level in seven steps. Battery replacement for The Sharper Image Literati Tablet may be the solution in fixing technological issues individuals encounter with the device.

TOOLS:

Spudger (1)

Soldering Iron 60w Hakko 503F (1)

Hair Dryer (1)

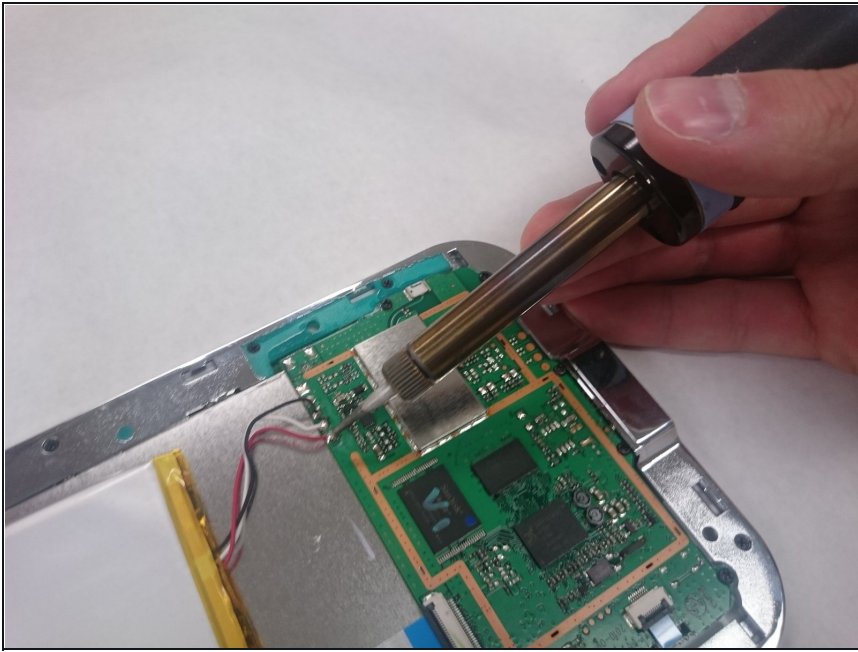

Plastic Cards (1)

Step 1 — Battery

- Wedge plastic spudger tool between the back panel and the body of device.
- Pry apart the back panel and the device.

Step 2

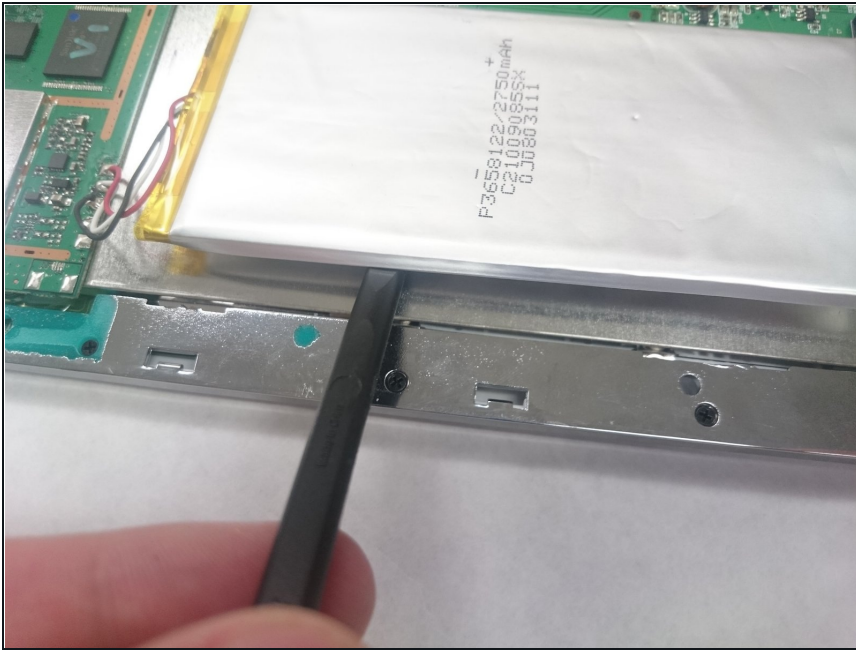

- [Desolder](#) the battery wires from the circuit board.

Step 3

- Warm the battery with a hair dryer.
- ⚠ Be careful not to over-heat the battery, this could cause the battery to ignite.

Step 4

- Gently wedge a spudger or thin [plastic card](#) between the battery and the body of device. Work the spudger or card along the length of the battery to free it from the adhesive.

⚠ Do not bend or puncture the battery. Work slowly and carefully.
