## INTRODUCTION

This guide will help you in replacing the touchpad on your HP Envy Sleekbook m6-k010dx. Make sure to turn the device off before doing anything.

---

### TOOLS:

- [Phillips #00 Screwdriver](#) (1)
  - [iFixit Opening Tools](#) (1)
-

## Step 1 — Battery

- Remove the twelve 9 mm Phillips #00 screws.

## Step 2

- Use the plastic opening tool and your hands to remove the bottom cover.

### Step 3

- Disconnect the battery power cable from the motherboard.

### Step 4

- Remove the six 6 mm Phillips #00 screws from the battery.

## Step 5

- Lift the battery out of the laptop.

## Step 6 — TouchPad

- Lift the white tab on the ZIF connector to unlock the ribbon cable.
- Pull the ribbon cable out of the ZIF connector.

## Step 7

- Remove the seven 3mm Phillips #00 screws from the trackpad.

## Step 8

- Use the plastic opening tool to lift the touchpad up and pull out to remove.

To reassemble your device, follow these instructions in reverse order.
