Archos Jukebox Recorder 20 Button Panel Replacement

In this guide we will demonstrate how to replace the front button panel.

Written By: Bryant Bucci

INTRODUCTION

This guide will show you how to replace the front button panel.

🔧 TOOLS:

- iFixit Opening Tools (1)
- Phillips #00 Screwdriver (1)

Step 1 — Battery

● Remove the plastic cover over the batteries on both sides of the device.
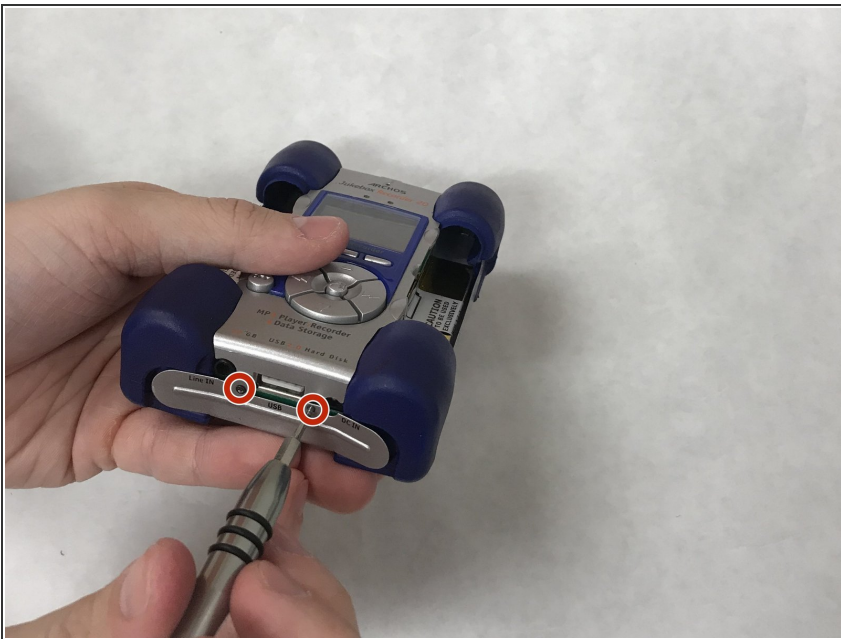

Step 2

● Remove the batteries (may require a plastic opening tool or spudger to pop the batteries out).

Step 3 — Button Panel

- Using the Philips Screwdriver, remove the top 2 screws.

- The screws are very small (2.5mm), put them somewhere you won't lose them.

Step 4

- Using the Philips screwdriver, remove the bottom 2 screws (2.5mm).

Step 5

- Remove the face.

To reassemble your device, follow these instructions in reverse order.
