

Air Jordan 1 Crease and Scuff Removal

This guide will teach readers how to remove creases and scuffs from the Air Jordan 1.

Written By: Mohammad Abdellatif

INTRODUCTION

The Air Jordan 1 is a leather sneaker that scratches and scuffs easily with wear. By completing these steps, you can learn how to repair your worn sneakers and improve their condition.

TOOLS:

- [Paintbrush](#) (1)
 - [Flat iron](#) (1)
 - [Paper Towels](#) (1)
 - [Towel](#) (1)
 - [Angelus Leather Paint](#) (1)
-

Step 1 — Air Jordan 1 Crease and Scuff Removal

- Unlace sneakers.

Step 2

- Stuff toe-box with paper towels until leather is stuffed to capacity.

Step 3

- Dampen a small towel.
- Place damp towel across toe-box.

Step 4

- Using a flat iron, iron over the damp towel to remove toe-box creases.

Step 5

- Keep the towel on after ironing them to reduce odd cracks.
- For best results, keep toe-box stuffed with paper towels until you're ready to wear.

Step 6

- Select Angelus Leather Paint that matches the original color of your shoes.
- Using a small paint brush, paint over scuffs and scratches with their original color in thin, even coats.
- Allow 20 minutes in between coats for paint to fully dry.

Step 7

- Re-lace sneakers.

Once you've completed these steps, your shoes will be ready for wear.
