INTRODUCTION

This guide will show you how to replace the loud speaker on a LG X Power smartphone.

TOOLS:

- [Phillips #0 Screwdriver](#) (1)
 - [iFixit Opening Tool](#) (1)
 - [Spudger](#) (1)
-

Step 1 — LG X Power Disassembly

- Insert a plastic opening tool above the AUX jack and slide it around the perimeter to pop the back cover off.

Step 2

- Remove the twelve 2.5mm Phillips #0 screws from the back of the phone.

Step 3

- Insert a plastic opening tool underneath the mid-frame and pry upwards until you hear a click.
- With the plastic opening tool still underneath the mid-frame, work your way around the perimeter until it's free from the smartphone.

Step 4 — Loud Speaker

- Pry the loud speaker out of the mid-frame with a plastic opening tool.

To reassemble your device, follow these instructions in reverse order.
