---

## INTRODUCTION

Having issues with the USB port of your chromebook? This guide will help you fix that.

---

### TOOLS:

- [iFixit Opening Tools](#) (1)
  - [Metal Spudger](#) (1)
  - [Phillips #0 Screwdriver](#) (1)
-

## Step 1 — Keyboard

- Use a metal spudger to pry off the two feet closest to the hinge of the laptop.
- ☑ The feet are attached to the laptop by adhesives, therefore they may not stick as well after multiple removals.

## Step 2

- Use a Phillips #0 screwdriver to unscrew the six 5mm screws.
- Use a Phillips #0 screwdriver to unscrew the two 6mm screws.

### Step 3

- Use a plastic opening tool to pry the keyboard off the edges of the computer.
- ⓘ The edges will make a popping noise.

### Step 4

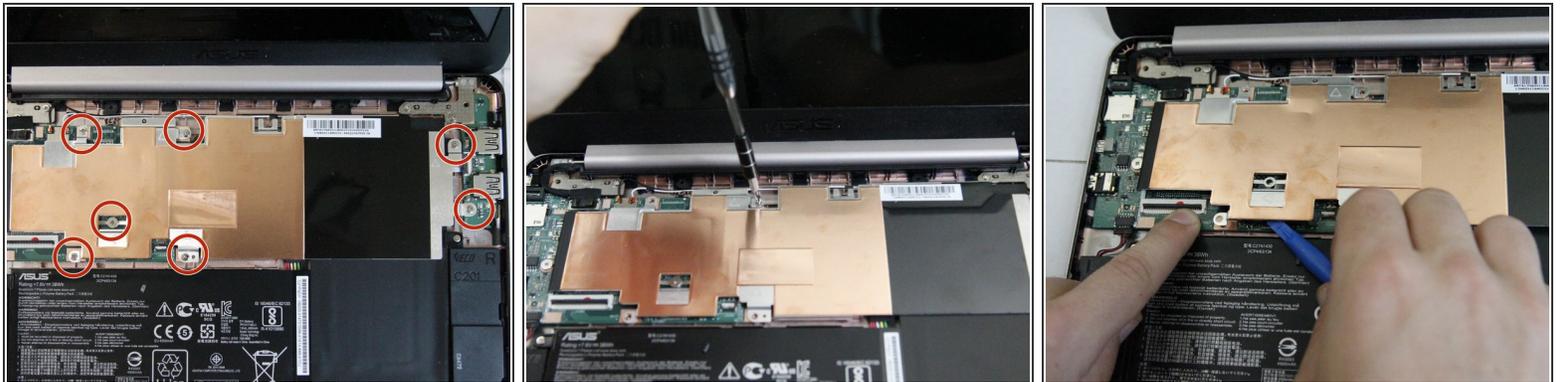

- Flip up the white bar that connects the thin white strip using a plastic opening tool.
- Grab the thin white strip and pull straight back to remove the strip from the connector.

## Step 5

- Use a plastic opening tool to lift the black bar above the wide black strip in the connector.
- Grab the wide black strip and pull straight back to remove the strip from the connector.
- Remove the keyboard by lifting it straight up.

## Step 6 — Metal Plate

- Unscrew the seven 4mm screws using a Phillips #0 screwdriver.
- Wiggle the plate back and forth to loosen the adhesive under the plate.
- ☞ The adhesive will not be the same after removal and more adhesive may be necessary upon reassembly.
- Rotate the screwdriver in a counterclockwise direction to remove the screws.
- ⚠ Do not rest your arm or hand in the adhesive.

## Step 7 — Daughterboard

- Use a Phillips #0 screwdriver to unscrew the two 4mm screws.
- Flip up the white tab to remove the white ribbon cable.

## Step 8

- Use a plastic opening tool to flip up the connector connecting the slim blue tipped strip to the daughterboard.
- Lift the slim blue tipped strip from the daughterboard.

## Step 9

- Place the plastic opening tools underneath the daughterboard.
- Gently lift the daughterboard from the base of the device.

To reassemble your device, follow these instructions in reverse order.
