Step 1 — Battery

- Carefully turn the lantern upside down.

- Remove the three 1.2 mm Phillips #0 screws from the base of the lantern.
Step 2

- Carefully pull the bottom of the lantern to remove the base from the device.

Step 3

- Gently pull the battery out of the slot and away from the base.

ⓘ The battery may be held into place by adhesive strips.

Step 4

- Carefully detach the negative wire from the battery terminal first.

- Next, detach the positive wire from the battery terminal.

To reassemble your device, follow these instructions in reverse order.
