

Lamp Pull Chain Replacement

With this guide, you will be able to repair a broken pull-chain on a lamp by using a chain connector and additional chain.

Written By: Anna Rill

INTRODUCTION

Have you ever had a lamp's pull chain break on you, leaving you with no way to turn it on? We understand. That's why we made this guide to fix the on/off switch on a perfectly good lamp! This guide will help you in repairing a snapped ball chain, allowing you to, once again, turn your lamp on and then off again.

PARTS:

- [Ball Chain](#) (1)
 - [Ball Chain Connector](#) (1)
-

Step 1 — Lamp Pull Chain

- Unplug the broken lamp and ensure you have all of the parts necessary for the repair.

Step 2

- Remove the light bulb from the lamp.

Step 3

- Unscrew the lamp shade from the base by turning it counter-clockwise.

Step 4

- Gently pull the socket from the base to expose the broken chain section.

Step 5

- Attach the chain connector to the extra chain.

Step 6

- Connect the chain with the chain connector to the broken chain on the lamp base.

Step 7

- Tilting the lamp in one hand, use your other hand to guide the chain into the hole that leads from inside of the socket to outside of the lamp.
- The chain will go down through this hole.

Step 8

- Gently push the socket back into place.

Step 9

- Screw the lamp shade back onto the base of the lamp by turning it clockwise.

Step 10

- Replace the light bulb into the lamp socket.

Step 11

- Plug your lamp into an outlet and turn it on!
- ⓘ You will pull down on the chain to do this.

Step 12

- Congratulations! You have fixed your lamp.

Congratulations on fixing your lamp!
