INTRODUCTION

This is a guide to replacing the Back Cover on the Zune Flash 2nd Generation.

🔧 TOOLS:

- iFixit Opening Tool (1)
- Tri-point Y1 Screwdriver (1)
www.iFixit.com

Step 1 — Back Cover

- Prior to disassembly, verify the hold switch is engaged to ensure the device will not turn on during the procedure.

- If the device turns on while it is being disassembled it could cause irreversible damage to the device.
ⓘ PICS MAKE NO SENSE.

Step 2

- Remove the top metal clip by inserting a Zune opening tool in between the faceplate and back cover and pulling gently back as shown in the images.

- You should hear a 'click' as the clip detaches from the device.
Step 3

- Remove the two screws shown using a Y00 Tri-Wing screwdriver.

Step 4

- Insert the Zune opening tool between the faceplate and the back cover, starting from the top and slowly work your way around the device.

Step 5

- Work your way around the Zune until the back cover comes free. Remove the back plate and set it aside.

To reassemble your device, follow these instructions in reverse order.
