

# HTC Evo 4G Dual LED Flash Replacement

Dual LED Flash replacement.

Written By: Walter Galan

## INTRODUCTION

Use this guide to replace a defective dual LED flash assembly.

---

### TOOLS:

- [Phillips #00 Screwdriver](#) (1)
  - [Spudger](#) (1)
  - [T5 Torx Screwdriver](#) (1)
  - [Tweezers](#) (1)
  - [iFixit Opening Tools](#) (1)
-

## Step 1 — Rear Panel

- Gently insert an iPod opening tool between the rear panel and the inner rear frame near the headphone jack.
- Use your iPod opening tool to pry up the rear case around the perimeter of the Evo.

## Step 2

- Lift the rear panel off of the inner rear frame.

### Step 3 — Battery

- Using the tip of your finger, lift the battery from the end closest to the camera.
- Remove the battery from the rear inner frame.

### Step 4 — MicroSD card

- Use the flat end of a spudger to pry up the red MicroSD retainer attached to the inner frame.
- ⚠ The retainer will move about 1 mm and stop. Do not attempt to completely remove the MicroSD card retainer.

## Step 5

- Use a pair of tweezers to carefully pull the MicroSD card out of its slot in the inner rear frame.

## Step 6 — Rear Inner Frame

- Remove six T5 Torx screws securing the rear inner frame to the inner case.

## Step 7

- Gently insert an iPod opening tool between the rear inner frame and its plastic surround near the Micro HDMI port.
- Carefully pry the top edge of the rear inner frame away from the front surround of the Evo.

## Step 8

- Insert the iPod opening tool between the rear inner frame and its plastic surround and pry up at several points along the left edge of the Evo.

## Step 9

- Continue the prying procedure, now focusing on detaching the plastic surround from the bottom of the Evo.
- Pry up the rear inner frame along the right edge using the method described in previous steps.
- Eventually work around the entire perimeter of the rear inner frame until it is lifted slightly from the inner case.

## Step 10

- Remove the rear inner frame from the rest of the Evo.

## Step 11 — Dual LED Flash

- Remove the two Phillips screws securing the dual LED flash assembly to the rear inner frame.

## Step 12

- Use an iPod opening tool to pry the dual LED flash assembly off the posts securing it to the rear inner frame.
- Remove the dual LED flash unit from the rear inner frame.

To reassemble your device, follow these instructions in reverse order.
