

Swiffer SweeperVac Filter Replacement

This guide shows how to replace a damaged filter.

Written By: Adeoluwa

INTRODUCTION

This guide will show the user of a Swiffer SweeperVac how to replace a damaged filter. Provided below are step by step instructions on how to replace the filter.

Step 1 — Dirt Container

- Place Swiffer SweeperVac on a flat surface.

Step 2

- Press the release button.

Step 3

- Lift the dirt container out of the device housing.

Step 4 — Filter

- Once the dirt container is removed, hold the dirt container firmly with one hand and use your other hand to gently lift the filter out of the dirt container.

To reassemble your device, follow these instructions in reverse order.
