

Samsung Galaxy Rush Rear Case Replacement

Need to replace your screen or motherboard? Use this guide to disassemble your phone.

Written By: Kenny Afiadata

INTRODUCTION

This guide will help you disassemble your phone so you can replace your screen, replace the motherboard, or camera. The power is in your hands.

TOOLS:

- [Phillips #0 Screwdriver](#) (1)
 - [iFixit Opening Tools](#) (1)
-

Step 1 — Rear Case

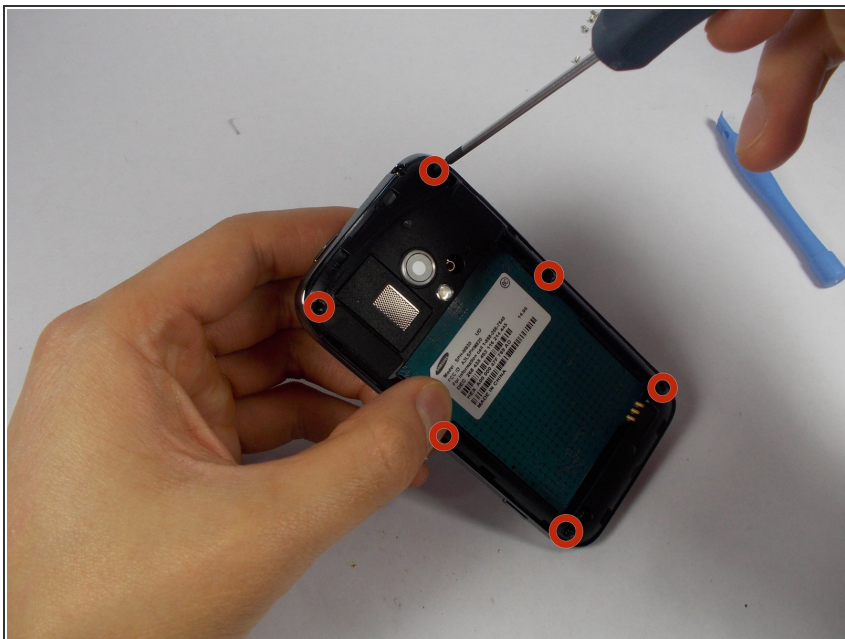

- Looking at the back of your phone, use your finger to remove back cover.

Step 2

- Remove the battery.

Step 3

- With a small phillips-head screw driver, remove the six screws holding the back panel in place.

Step 4

- Use the pry tool to pry the back panel from the rest of the phone. Pry from the edge closest to the screen for simplicity.

To reassemble your device, follow these instructions in reverse order.
