

Sirius Stiletto 2 Front Cover Replacement

Guide on how to replace the front cover.

Written By: Benjamin Her

INTRODUCTION

This guide will show how the front cover is replaced in the case that the screen cracks or breaks.

TOOLS:

- [iFixit Opening Tools](#) (1)
 - [Phillips #00 Screwdriver](#) (1)
-

Step 1 — Battery

- From the back of the device, slide the back panel downwards to unlock the panel.
- Lift the panel up, exposing the battery.

Step 2

- Pinch the battery from both sides and lift the battery to remove it.

Step 3 — Front Cover

- Unscrew the four 6.68mm (1.43mm diameter) Philips #00 screws.
- ⓘ If needed, remove the sticker to see the screws

Step 4

- Start by using a plastic opening tool to loosen the front cover from the sides.
- Work your way to the bottom of the cover then the top.
- Carefully pry the front cover off.

To reassemble your device, follow these instructions in reverse order.
