

Samsung Galaxy Tab Pro 10.1 Rear Facing Camera Replacement

This guide will show how to replace the rear...

Written By: Stephen Yeung

INTRODUCTION

This guide will show how to replace the rear facing camera on the Samsung Galaxy Tab Pro 10.1.

TOOLS:

Metal Spudger Set (1)
iFixit Opening Tool (1)
iFixit Precision Bit Driver, Aluminum (1)
Phillips #00 Screwdriver (1)
Tweezers (1)

PARTS:

Galaxy Tab Pro 10.1 Rear Camera (1)

Step 1 — Rear Panel

 Be gentle, the front panel is connected to sensitive wiring that may snap if too much pressure is applied.

- Insert a plastic opening tool into the crevice between the screen and the side of the tablet.
- Go around the entire crevice with the plastic opening tool.
- Set aside the separated front and rear panels of the device.

Step 2 — Rear Facing Camera

- Use plastic [tweezers](#) and carefully detach the rear-facing camera from the motherboard.
-

To reassemble your device, follow these instructions in reverse order.
