

ASUS Eee PC 900HD Battery Replacement

In case your battery is simply out of function one may have to replace it. In order to do so it wont take long, and there are no tools needed.

Written By: Kendall Marie Mehlhorn

Step 1 — Battery

- Flip the laptop over and locate the battery lock tabs.
- Slide the right tab to the unlock position (right) so that the red is showing. Then, slide and hold the left tab to its unlock position (left).

Step 2

- While switching the left tab to the left, gently pull up on the battery to release.
- You can now fully replace the battery.

To reassemble your device, follow these instructions in reverse order.
