INTRODUCTION

If you would like to replace your wireless NIC then this is the guide that you have been looking for.

🔧 TOOLS:
- iFixit Opening Tools (1)
- Spudger (1)
- Phillips #0 Screwdriver (1)
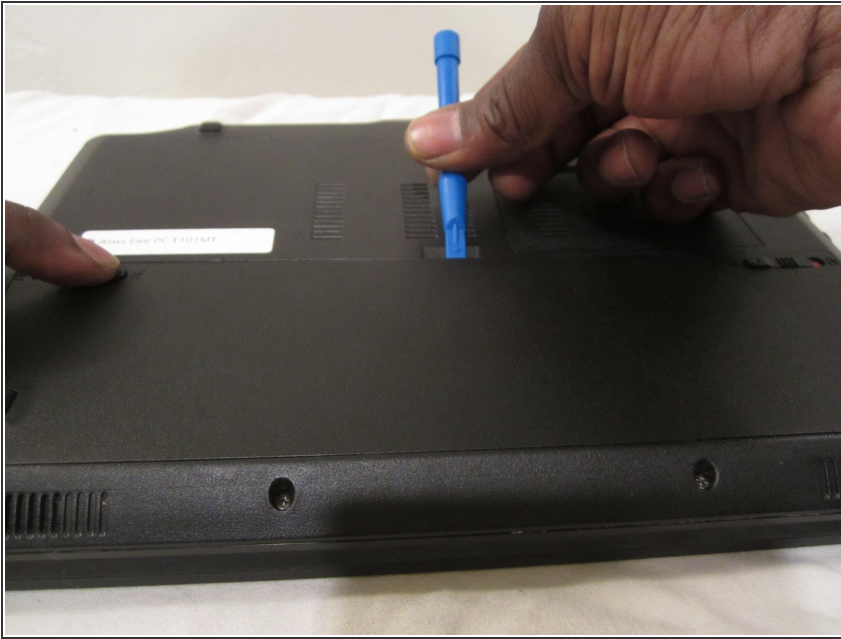

Step 1 — Battery

⚠️ Before you begin, make sure your device is powered off and not connected to the power supply.

● Turn the tablet over and position it so it matches the picture.

Step 2

● Locate the sliding tab on the right and slide it to the left in order to unlock the battery.

Step 3

- Use a plastic opening tool to lift the battery up as you slide the tab on the left to the right.

Step 4

- Lift the battery out of the device.

Step 5 — Keyboard

- Turn the tablet over and open it up. Insert a nylon spudger into the slots above F1, F6, F10 to pry up the keyboard.
Step 6

- Once you have the keyboard out, use the nylon spudger to remove the connection. You can now replace the keyboard.
