

LG Voyager Camera Replacement

This guide will show you how to remove a defective camera from an LG Voyager and replace it with a new one.

Written By: KateOshea

INTRODUCTION

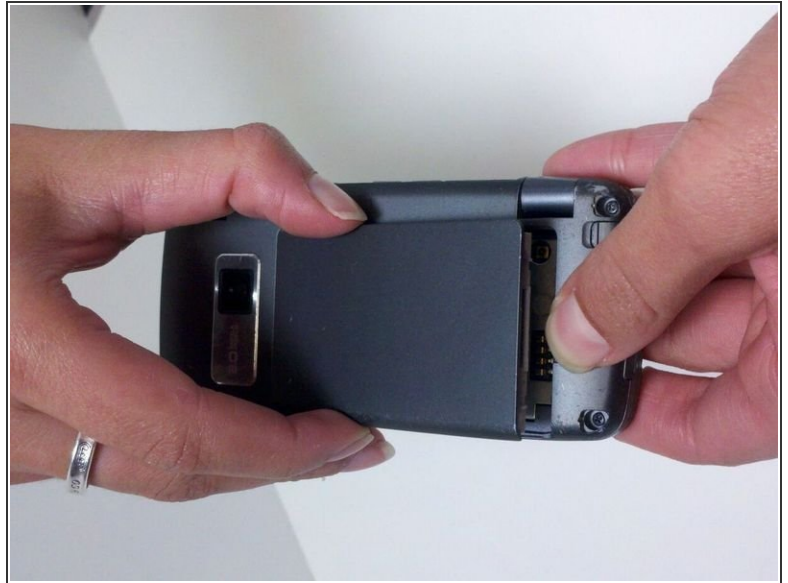

If your LG Voyager camera is not working properly, you can replace it by following the steps in this guide.

TOOLS:

- [Spudger](#) (1)
 - [iFixit Opening Tools](#) (1)
 - [Phillips #00 Screwdriver](#) (1)
-

Step 1 — Camera

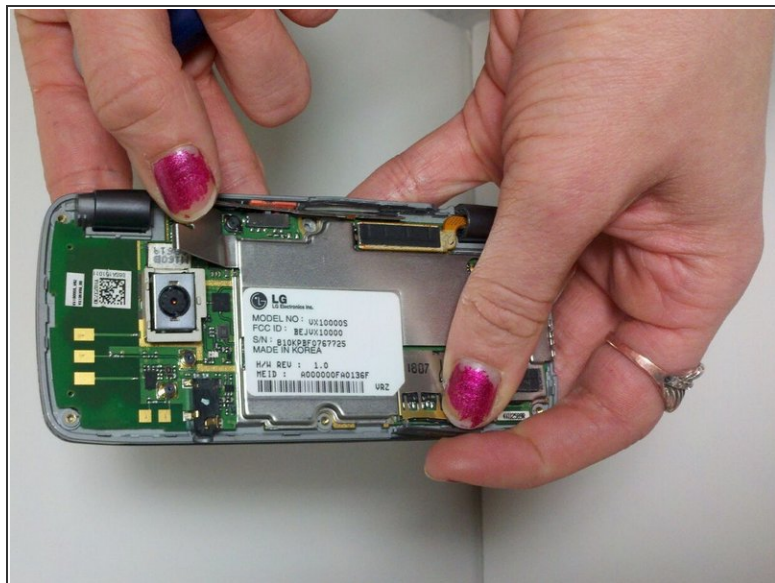

- Remove the battery by pressing the button below it and lifting it out.

Step 2

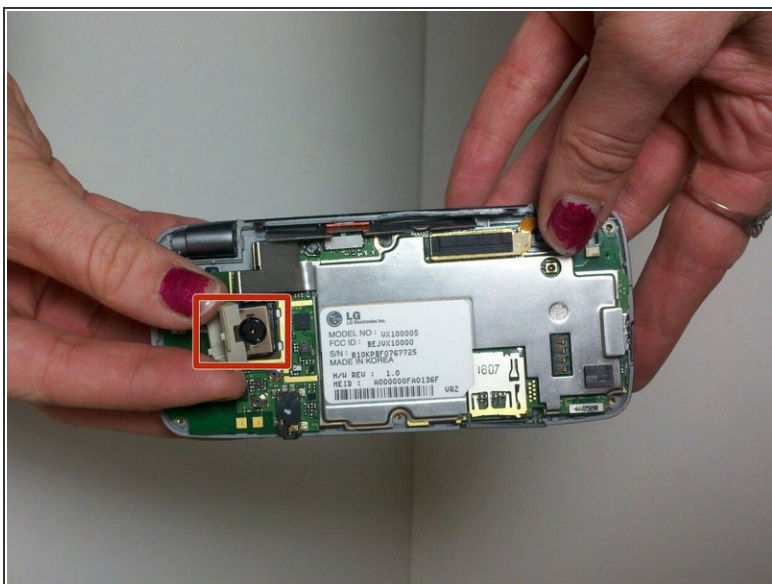

- Unscrew all four screws from the corners of the back cover.
- Using a plastic opening tool, gently remove the back cover.

Step 3

- Slightly lift the small silver panel located to the right of the camera.

Step 4

- Remove the tan plastic camera cover.

Step 5

- Lift the connector with a spudger.

Step 6

- Remove the camera by carefully separating it from the tape underneath it.

Step 7

- Gently press the replacement camera into the old one's place.
- Replace all of the phone's removed parts, and you are ready to use your new camera.
