Pacific Image Electronics CS3600 Button Spring Replacement

If the button has stopped working, this guide will show you step-by-step instructions on how to fix the spring.

Written By: Amber Berry

INTRODUCTION

Before beginning, please know that you will be completely taking apart the device in order to get to the button from the inside.

🔧 TOOLS:

- JIS Driver Set (1)
  J0, J1

Step 1 — Button Spring

- Begin opening the device by unscrewing the 5 following 9mm x 7mm screws with a J1 screwdriver.
Step 2

- Once the screws have been removed, with light force open the scanner by pulling it apart at the seam.
